

# St. Pat's SPOTLIGHT

NOVEMBER 17TH, 2016

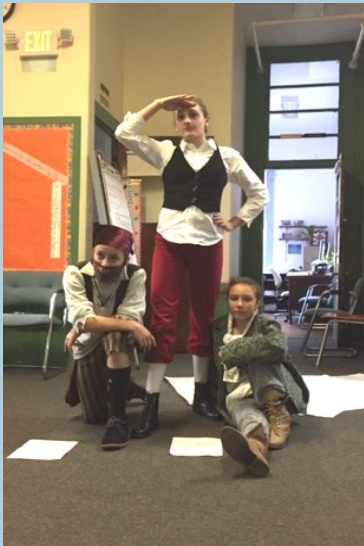

Below: The 6th grade had their own version of *Shark Tank* last week. The “investors” are listening to Willa and Matt pitch their idea on a “Solar Cooker” to warm food using the sun’s energy. One of the investors, Mr. H, was so impressed, he invested everything he had in their product.

## One World Language School

We are excited about our new partnership with One World Language School for our Spanish program. Profesora Jennings started this week and is working with students in grades K-8th. One World Language believes in making learning a language fun. They focus on speaking the language by using interactive games, manipulatives, and puppets. Above left: Johnny is being spun while blindfolded and having to guess in Spanish who may be in front of him while the kids answer in Spanish. Above right: Lucy and Brook are showing off their puppets. Each student was given a puppet and asked to name and introduce it to the class in Spanish. They will be working with their puppet throughout the program.

This week, the 7th graders integrated art, history, and writing in explorer monologues. They wrote historical fiction about an explorer and converted it into a monologue for younger students. They dressed up as the explorers and presented to the younger grades in a living museum format.
