

The Academy SPOTLIGHT

OCTOBER 20TH, 2017

Last Friday, our middle school students were able to visit the new school site on Banfield Road. Fr. Gary was present to say a blessing. Then the students learned about the building process and some of the efforts being done to make our new building as energy efficient as possible. They were excited to see the steel beams up for the chapel and some of the walls in the middle school wing!

Our Tennis Club had a successful fall session with one more class next week! Thank you to Adam and Jess Molda for organizing this program for us!

NBA player, Paul Grant, visited some of the classrooms this week. He will be at the Rising of the Moon Auction next Friday for the shootout game!

On Wednesday, our students had a chance to work with their buddies. Students in the 5th & 6th grade helped their kindergarten buddies make fall collages while fourth graders read aloud to their partners.
